

Авторский каталог стёжек

Стёжка и пошив покрывал, декоративных подушек, саше и других стеганых изделий на рамочной стегальной машине

www.marufabrics.ru

+7 965 380 00 15

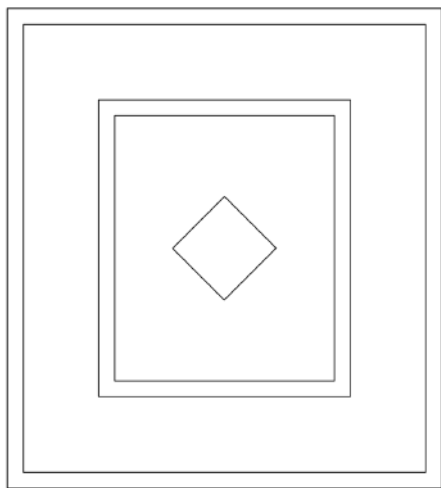

- ❑ Максимальное поле самой стежки 230 x 220 см, это обусловлено максимальным размером стегальной рамы. Внешние габариты полотна/покрывала для выполнения стежки могут быть любыми, но не более 300 x 300 см.
- ❑ Стежка в каталоге отражена на максимальное поле, при уменьшении размера поля стежки на покрывале, дизайн стежки и размер раппорта уменьшается пропорционально этому размеру.
- ❑ Если вам нужен конкретный размер элемента стежки или собственный дизайн, то выполняется индивидуальная отрисовка стежки по заданным размерам. Необходимо обязательно указать в бланке заказа данную информацию или приложить эскиз
- ❑ Стежка выполняется практически из любых тканей заказчика, кроме плотных мебельных. Также не рекомендуем использовать для стежки димаут/блэкаут и плотный атлас, т.к. есть риск зацепок и черных точек в димауте в месте прокола иглой
- ❑ Мы используем только свой наполнитель экофайбер от проверенного производителя, ширина 300 см, плотность 100, 200, 300, 400 г/м2
- ❑ В наличии складская коллекция однотонных натуральных тканей (сатин, вареный хлопок, хлопколен) как для пошива покрывал, так и в качестве подкладки
